c.c. All Users 19th December 2000

Dear Simon,

Withdrawal of Notice to Change the Validation Rules Given Under M1.5.3.

As you are aware I wrote to all Users on 27th September giving notice, pursuant to Section M.1.5.3 of Network Code, that the Network Code Validation Rules would change to Version 2 on 3rd January 2001.

With the approval of Modification Proposal 0439 "Changes to Network Code Validation Rules" on Friday 15th December Version 3 of the Validation Rules will become effective on 21st December 2000. As Version 3 contains additional changes to those in Version 2 and is the version that will be applied, Version 2 will therefore be redundant.

I am therefore writing to notify you that Transco is withdrawing the notice given on 27th September 2000 implementing Version 2.

Yours sincerely,

Tim Davis,
Head of Network Code & Pricing
