# Provision of Shrinkage Provider Data: Gas Procurements & Disposals

# Modification Proposal 0692

Steve Pownall

22nd April 2004

National Grid Transco

# Provision of Shrinkage Provider Data: Gas Procurements & Disposals

Why?

- Implementation of 0579 and 0599 (effective 1st April)
- Transco's alternative Proposal to 0618
- Provision of the information will assist Users to monitor the performance of Transco (SP) against Licence & NwC obligations
- Improve transparency of the SP process/activities in relation to Transco NTS SO incentives
- May further facilitate competition in the market

National Grid Transco

# Provision of Shrinkage Provider Data: Gas Procurements & Disposals

Information to be provided:

- Quantity of gas; bought, sold* & net
- Minimum/maximum price of gas bought & sold*
- Weighted average price of gas bought & sold*
- Total number of trades; buys and sells

* *where gas has been sold*

National Grid Transco

# Provision of Shrinkage Provider Data: Gas Procurements & Disposals

Basis of publication:

- Data: Gas Day
- Frequency: Monthly - aligned to the SP's operational & administrative activities that collate and report this type of data on a monthly (M+15) basis
- Transco supports the wider, public dissemination of this information e.g. web-based (systems development impact requested from IS based on this requirement)
- Implementation aligned to the next release of Information Exchange website (October 2004)
