Draft Modification Report

0466 0466A - Daily Meter Reading Simplification (with improved within day data provision)

Consultation close out date: 06 November 2014

Respond to: enquiries@gasgovernance.co.uk

Organisation: SSE Supply

Representative: Mark Jones

Date of Representation: 06 November 2014

Do you support or oppose implementation?

0466 - Support

0466A - Support

If either 0466 or 0466A were to be implemented, which would be your preference?

Prefer 0466

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We support this modification as the current regime does not reflect the requirements that have changed as a result of the advances in meter reading technologies and communications. Also, the Transporters daily read data requirements have changed, and the current regime was set up when there were significantly more supply meter points that were subject to it. This modification now sets out to bring the obligations in line with the current requirements.

Modification Panel Members have indicated that it would be particularly helpful if the following question(s) could be addressed in responses:

How many sites are likely to take up the service?

We are not able to provide any information on the number of sites that may take up this service.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

0466/0466A

We agree with the proposer that this modification positively impacts relevant objective (f) as it would enable transporters to provide a significantly more efficient metering reading service for Daily Metered Supply Points.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

No material costs identified.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

As per the modification proposal it should be decided after implementation and scrutinised by the UNC Committee.

Legal Text:

Are you satisfied that the legal text and the proposed ACS (see www.gasgovernance.co.uk/proposedACS) will deliver the intent of the modification?

We have not reviewed the legal text.

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No.
