

Actions on NGN from the Shrinkage Forum 27 June 2011

Action SF0601: Transporters to provide a breakdown of 2010 Theft of Gas upstream incidents i.e. the number of cases reported, the number of proven cases, an estimate of energy and an LDZ breakdown for consideration at the next meeting.

NGN provided much of this information in response to action SF0304 from the March SF meeting. The information relating to calendar year 2010 (Jan to Dec inclusive) for upstream TOG incidents for both of NGN's LDZs (NO & NE):

- No. of investigations: 50 incidents [this is all suspected/reported cases]
- No. of detections made 21
- Assessment of gas stolen [associated with the 21 TOG incidents]: 2.5 GWh

A split by LDZ is not possible at present given xoserve's current systems
