1. Introduction and Status Review

BF welcomed all to the meeting.

1.1. Approval of Minutes (24 August 2017)

The minutes of the previous meeting were approved.

1.2. Modification(s) with Ofgem

SH explained that Modification 0593V - *Provision of access to Domestic Consumer data for Price Comparison Websites and Third Party Intermediaries*, had only recently been submitted to Ofgem for consideration, so he was not in a position to comment on this modification at the present time.

1.3. Pre-Modification discussion

1.3.1 Amending the permissions to release data to Meter Asset Provider organisations

RH explained that this draft modification had been raised by E.ON and that it was seeking to amend the existing permissions for Supply Point data to be provided to Meter Asset Provider (MAP) organisations. The Workgroup were in agreement that this modification should now be formally raised and that it should go straight to consultation with a Self-Governance status.

1.3.2 Amendments to Modification 0431 – Shipper/Transporter – Meter Point Portfolio Reconciliation rules and obligations

This draft modification had not been submitted to the Workgroup for discussion, as the Proposer was unwell and unable to attend the meeting.
