

Gas Transportation Charges from 1 April 2018 for East of England, London, North West and West Midlands Distribution Networks (Supplemental Notice for DN Entry Sites No.1)

This notice is intended to supplement our previously published [Final Charge Notification](#) and [Charging Statements](#) for the charging year commencing 1st April 2018, and is provided with two months' notice ahead of implementation in line with Uniform Network Code and Gas Transporter Licence obligations.

It provides a revised DN Entry Commodity charge / credit rate for the Distributed Gas Entry Points listed below.

For Hemswell Cliffe, there has been a change to the pressure tier at which the site will connect; therefore the unit rate requires re-calculation accordingly. The site is not yet in operation, but is anticipated to commence flowing gas before the end of the 2018/19 charging year. The revised unit rate will therefore be applicable for the period between commencement of site operation and the end of the charging year on 31st March 2019.

If you have any questions or comments regarding this notice please contact the Revenue and Pricing Team.
