

MODIFICATION 0652

INTRODUCTION OF WINTER READ/CONSUMPTION REPORTS AND ASSOCIATED OBLIGATIONS

[Proposed] Legal Text

TRANSPORTATION PRINCIPAL DOCUMENT

SECTION M: SUPPLY POINT METERING

Add new paragraphs 5.9.16 and 5.9.17 to read as follows:

- 5.9.16 In respect of a Class 4, Smart or Advanced Supply Meter "**winter consumption data**" means [data which is required by the CDSP to enable it to determine the quantity of gas which is offtaken from the Total System at the Supply Meter Point in the period December to March in a Gas Year as a proportion of the [Annual Quantity] for the Supply Meter Point [prevailing at the start of such Gas Year].
- 5.9.17 Where the Registered User of a Class 4, Smart Meter or Advanced Supply Meter is notified by the [PAFA] (pursuant to reporting undertaken as part of the Performance Assurance Scheme) in May in a Gas Year that winter consumption data is not available in respect of the Supply Meter, the Registered User shall, [no earlier than 15 August and by no later than 15 September in the same Gas Year, send the CDSP winter consumption data for the Supply Meter, [which such data the CDSP shall use for the purposes of determining [the End User Category for the NDM Supply Point in which the Supply Meter is comprised] in accordance with Section H].
