UNC Modification Proposal 0690S - Reduce qualifying period for Class 1

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent would like to support.

Do you support or oppose implementation?

Support

Relevant Objective:

- a) Positive
- b) Positive
- d) Positive

Reason for support/opposition:

This modification, if implemented, would move Supply Points into Class 1 more quickly than at present once the AQ reaches the AQ threshold. This should ensure a reduction in UIG.

Implementation

Implementation of the modification should take place as soon as any changes to relevant parties systems/processes are in place.

Impacts and Costs

None identified.

Legal Text

As Legal Text provider we are satisfied that it meets the intent of the Modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions.

Please provide below any additional analysis or information to support your representation

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 (andy.clasper@cadentgas.com) should you require any further information.

Yours sincerely,

Andy Clasper
