1<sup>st</sup> June 2020

Dear Colleague,

**Invitation to participate in the July 2020  
NTS Exit (Flat) Capacity Annual Application Window**

Pursuant to Section B3.2.23 and Section B3.4.1 of the Transportation Principal Document (TPD) of the Uniform Network Code (UNC), National Grid Gas plc ("National Grid") in its role as holder of the Gas Transportation Licence in respect of the National Transmission System (NTS) (the "Licence") invites you to take part in the July 2020 Annual Application Window for NTS Exit (Flat) Capacity. A separate notice has been sent to the Distribution Network Operators (DNO) in addition to this, detailing information on the Offtake Capacity Statement process and the DNO adjustment window.

The Annual Application Window will be held using the Gemini Exit System and therefore all applications and reduction notices in respect of NTS Exit (Flat) Capacity will need to be entered in Gemini Exit by all Users including DNOs. For each NTS Exit Point (please refer to **Table One** and **Table Two** for details of valid NTS Exit Points) a capacity application (or reduction) may be created, withdrawn or modified in line with the windows detailed in sections 1, 2 or 4 below.

Users are advised to familiarise themselves with the relevant sections of the UNC, the Exit Capacity Release (ExCR) Methodology Statement v13.0 and the Exit Capacity Substitution Methodology Statement v10.0 which can be found at:

<https://www.nationalgridgas.com/capacity/capacity-methodology-statements>

A notice of the indicative charges for Enduring Annual NTS Exit (Flat) Capacity for October 2020 onwards has been published by National Grid, dated 1<sup>st</sup> May 2020, and can be viewed at:

<https://www.gasgovernance.co.uk/ntscharges/2020>. Please note that these prices will be subject to change following the decision from Ofgem on 28<sup>th</sup> May to implement Modification 0678A.

National Grid would like to highlight that any UNC modification proposals pending a decision from the Authority, or awaiting an implementation date, at the time of issuing this invitation letter may impact the process for July 2020 capacity applications and reduction notices. It is for all Users to determine for themselves, the impact of any UNC changes and any other changes to the Exit Capacity regime. However, where a UNC Modification that impacts upon the July 2020 processes is implemented prior to 15<sup>th</sup> June 2020, we will communicate this to Users.

Proposals for UNC Modifications may be found at: [www.gasgovernance.co.uk](http://www.gasgovernance.co.uk).

## 1. Annual Applications

As specified in TPD Section B3.1.9 of the UNC, the Annual Application Window will be open, commencing at 08:00 BST and ending on 17:00 BST, on each Business Day in July.

Under TPD Section B3.4.2 of the UNC, Users may make capacity applications for Annual NTS Exit (Flat) Capacity for Gas Years commencing on 1<sup>st</sup> October 2020, 1<sup>st</sup> October 2021 and 1<sup>st</sup> October 2022 respectively.

In accordance with TPD Annex B-1 4.5 of the UNC, National Grid will inform each User which of its applications were accepted and the quantity of Annual NTS Exit (Flat) Capacity allocated on Gemini Exit by **14<sup>th</sup> August 2020**.

National Grid will, by **14<sup>th</sup> August 2020**, publish on its website at:

<http://mip-prod-web.azurewebsites.net/ExitCapacityPublication/Index> the following information in respect of each NTS Exit Point for the Gas Years commencing 1<sup>st</sup> October 2020, 1<sup>st</sup> October 2021 and 1<sup>st</sup> October 2022:

- Aggregate volume of Annual NTS Exit (Flat) Capacity requested
- Aggregate volume of Annual NTS Exit (Flat) Capacity allocated
- Aggregate volume of Annual NTS Exit (Flat) Capacity unsold
- Total number of Users who submitted capacity requests
- Total number of Users who have submitted successful capacity requests

For information, the available Annual NTS Exit (Flat) Capacity for each relevant Gas Year in respect of each NTS Exit Point is shown in **Table One** attached to this invitation letter.

In accordance with the TPD Section B3.4.2(c) of the UNC, the quantity of unsold Annual NTS Exit (Flat) Capacity made available for a full year shall be the amount of Remaining Available NTS Exit (Flat) Capacity that is available for all Gas Days within that Gas Year.

## 2. Enduring Annual Applications

As specified in TPD Section B3.1.9 of the UNC, the Annual Application Window will be open, commencing at 08:00 BST and ending at 17:00 BST, on each Business Day in July 2020.

Users may apply for Enduring Annual NTS Exit (Flat) Capacity, for a start date of the 1<sup>st</sup> day of any month from 1<sup>st</sup> October 2023 onwards for those NTS Exit Points detailed in **Table Two** of this invitation letter.

Allocations of increase capacity applications for Enduring Annual NTS Exit (Flat) Capacity shall be in accordance with the ExCR and will be published to Users by no later than 30<sup>th</sup> September 2020 on Gemini Exit.

On the Business Day following the allocation of any capacity [applications], National Grid will publish on its website at: <http://mip-prod-web.azurewebsites.net/ExitCapacityPublication/Index> the following information in respect of each NTS Exit Point for each of the Gas Years commencing 1<sup>st</sup> October 2023 1<sup>st</sup> October 2024 and 1<sup>st</sup> October 2025:

- Aggregate volume of Enduring Annual NTS Exit (Flat) Capacity requested
- Aggregate volume of Enduring Annual NTS Exit (Flat) Capacity allocated
- Aggregate Quantity of Enduring Annual NTS Exit (Flat) Capacity sold in excess of the Baseline NTS Exit (Flat) Capacity

- Total number of Users who submitted capacity applications
- Total number of Users who have submitted successful capacity requests

### 3. Release of Incremental Obligated Exit Capacity

Incremental Obligated Exit Capacity may be requested through the Annual Application Window but will only be released at National Grid's discretion, and/or if the request can be fully satisfied through substitution.

### 4. Enduring Annual Reduction Notices

As specified in TPD Section B3.2.13 of the UNC, the annual reduction window will be open, commencing at 08:00 BST or later than 17:00 BST, on each Business Day between 1<sup>st</sup> July 2020 and 15<sup>th</sup> July 2020.

Where reductions have been received, and accepted, National Grid will notify each User of the date on which the reduction is to be effective and the updated amount of Enduring Annual NTS Exit (Flat) Capacity that User will continue to be registered as holding, by no later than 30<sup>th</sup> September 2020 on Gemini Exit.

In accordance with UNC TPD B3.2.22 and the ExCR, National Grid will, no later than twenty-four hours after, publish on its website at (<http://mip-prod-web.azurewebsites.net/ExitCapacityPublication/Index>) the following information in respect of each NTS Exit Point for each month where a notice of reduction was received:

- Aggregate amount of Enduring Annual NTS Exit (Flat) Capacity for which Users gave notices of reduction
- Aggregate amount of Enduring Annual NTS Exit (Flat) Capacity which Users ceased to be registered as holding

Please refer to the notice of the indicative charges for Enduring Annual NTS Exit (Flat) Capacity for October 2020 onwards which has been published by National Grid, dated 1<sup>st</sup> May 2020 and is available via the following link including additional details relating to the calculations of the Exit Capacity charges: <https://www.gasgovernance.co.uk/ntscharges/2020>. Please note that these prices will be subject to change following the decision from Ofgem on 28<sup>th</sup> May to implement Modification 0678A.

### 5. General

National Grid has put this document together with due care and in good faith to generally summarise the relevant process in each case but this invitation is not intended to replace the more detailed provisions in UNC and the ExCR which Users should comply with. If there is any conflict between the provisions of the UNC and this invitation the provisions of the UNC shall prevail.

Terms and expressions not otherwise defined in this letter shall have the meanings given to them in the UNC.

We have provided some additional information to support your application; this can be found at: <https://www.nationalgridgas.com/capacity/exit-capacity>

This is a short summary of the application process and in particular the different considerations for Enduring or Annual Exit (Flat) Capacity.

Please note that this letter will be sent by e-mail via the Joint Office of Gas Transporters and will be posted on the National Grid Exit Capacity web site at:

<http://mip-prod-web.azurewebsites.net/ExitCapacityPublication/Index>

If you have any queries about these Annual application processes, please contact either myself or a member of the Capacity Team on +44 (0)1926 654057. Alternatively, the Capacity Team can be contacted by e-mail at: [capacityauctions@nationalgrid.com](mailto:capacityauctions@nationalgrid.com).

Yours faithfully,

**Sophie Sawbridge**
