Monday 17<sup>th</sup> February 2020

Dear Colleague,

### **Annual Invitation to Participate in Auction of Quarterly System Entry Capacity**

National Grid<sup>1</sup> invites you to take part in the 2020 annual Quarterly System Entry Capacity (QSEC) auction which will take place on Business Days from the **16<sup>th</sup> March 2020** to the **27<sup>th</sup> March 2020**.

The auction is for Quarterly Firm NTS Entry Capacity for the transaction period **1<sup>st</sup> October 2021 to 30<sup>th</sup> September 2036**. Users can make applications for each calendar quarter within this period.

The provisions of the Uniform Network Code (UNC)<sup>2</sup> shall apply to this invitation, the 2020 auction for QSEC and any bids made and rejected or accepted pursuant to such auction, and any subsequent allocation of QSEC. Words and expressions which are capitalised but not defined in this invitation, but which are defined in the UNC shall have the meanings given to them in the UNC.

Please refer to the Joint Office website (<http://www.gasgovernance.co.uk/livemods>) with regards to any modification of the UNC which may affect capacity during the transaction period.

Each bidding window in the QSEC auction will commence at 08:00 and close at 17:00 on each day specified below, subject to the stability measure being reached.<sup>3</sup> A QSEC bid may be withdrawn or amended until but not after 17:00 on each day.

### **Auction Dates**

National Grid will conduct the annual QSEC auction from the 16<sup>th</sup> March 2020 to the 27<sup>th</sup> March 2020 on the annual invitation dates listed below.

- **Monday 16<sup>th</sup> March**
- **Tuesday 17<sup>th</sup> March**
- **Wednesday 18<sup>th</sup> March**
- **Thursday 19<sup>th</sup> March**
- **Friday 20<sup>th</sup> March**
  
- **Monday 23<sup>rd</sup> March**
- **Tuesday 24<sup>th</sup> March**
- **Wednesday 25<sup>th</sup> March**
- **Thursday 26<sup>th</sup> March**

<sup>1</sup> Pursuant to Section B 2.2.1(d) of the Transportation Principal Document (TPD) of the Uniform Network Code (UNC), National Grid Gas plc ("National Grid") in its role as holder of the Gas Transporter Licence in respect of the National Transmission System (NTS) (the "Licence").

<sup>2</sup> Including in particular, but not limited to, TPD Section B.

<sup>3</sup> As specified in TPD Section B 2.2.9(a) of the UNC.

- **Friday 27<sup>th</sup> March**

National Grid shall close the annual QSEC auction on the last date listed, or before if the stability measure is reached.<sup>4</sup> The earliest this can occur is after Interim Bid Window 2 (IBW2) from 17<sup>th</sup> March 2020 onwards.

National Grid reserves the right to amend the auction timings and withdraw and re-issue the auction invitation. Furthermore, although unlikely, National Grid reserves the right to raise UNC Modifications, requesting urgency or otherwise.

### **Entry Capacity Regime**

It is a User's responsibility to understand the NTS Entry Capacity regime, determine a strategy and bid accordingly. For further information on the regime and QSEC auctions please refer to Appendix 3 onwards.

As stated previously, please refer to the Joint Office website (<http://www.gasgovernance.co.uk/livemods>) with regards to any outstanding modifications which may affect capacity during this transaction period.

### **Entry Capacity Retainers**

In accordance with UNC TPD Section B2.15 and in particular the NTS Entry Capacity Substitution Methodology Statement (ECS), National Grid opened the retainer window on 21<sup>st</sup> and 23<sup>rd</sup> January 2020, for Shippers to participate and take out a retainer at Aggregated System Entry Points (ASEPs), where they wanted to exclude available Entry Capacity from being treated as Substitutable Capacity<sup>5</sup> without having to buy it.

There were no retainers requested during the retainer windows on the dates above.

### **NTS Entry Capacity Offered**

National Grid invites offers in respect of the Unsold NTS Entry Capacity<sup>6</sup>, as shown in Appendix 2.

Requests for Incremental Obligated Entry Capacity that cannot be met through substitution may be allocated as Non-Obligated Incremental Entry Capacity at the sole discretion of National Grid.

### **Entry Capacity Substitution**

The NTS Entry Capacity Substitution Methodology Statement<sup>7</sup> (ECS) can be found via:  
<https://www.nationalgrid.com/uk/gas/charging-and-methodologies/methodologies>

The principle of NTS Entry Capacity Substitution may be applied to meet demand for Incremental Obligated Entry Capacity (IOEC) in the March 2020 QSEC. Entry Capacity Substitution means that where IOEC is required, this should first be met by reducing available obligated entry capacity at other ASEPs (the "donor" ASEPs) where capacity is unsold and not otherwise excluded from substitution, before undertaking investment in new infrastructure. The result of this is that, when the substitution obligation is applied, NTS Entry Capacity that is not booked can be moved to other ("recipient") ASEPs and will not be available as unsold obligated capacity at the original (donor) ASEP in future auctions. In addition to this, capacity that has been reserved under the PARCA process will be excluded from substitution.

Whilst National Grid may be able to satisfy a request for capacity via the release of non-obligated capacity or via substitution the only way to guarantee release of incremental capacity is via the PARCA process.

### **Information Provision**

Information will be published by National Grid after each Interim Bid Window (IBW) on each Business Day the auction remains open, for each Aggregate System Entry Point (ASEP) and each relevant quarter. This can be found on Gemini

---

<sup>4</sup> In accordance with the provisions of the UNC and, in particular, TPD Section B2.2.1.

<sup>5</sup> As defined in the ECS.

<sup>6</sup> In accordance with its obligation pursuant to UNC TPD Section B2.2.

<sup>7</sup> Further documents are available on our website at: <https://www.nationalgrid.com/uk/gas/charging-and-methodologies/methodologies>

report screens (Product>Publish Results>MoS Results>screens) and will be available by 20:00<sup>8</sup>, and on the National Grid website as soon as practicable via:

<http://mip-prod-web.azurewebsites.net/EntryCapacityAuctions/Index>

by selecting the following criteria:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Bid Window Results
From Month/Year:	Oct-21
To Month/Year:	Sep-36

The final allocation will be determined by application of the tests described in National Grid's current Incremental Entry Capacity Release Model and Methodology Statement (ECR) and UNC (TPD Section B.2.6). The ECR statement can be found via:

<https://www.nationalgridgas.com/capacity/capacity-methodology-statements>

National Grid will inform Users of their QSEC capacity allocation, in accordance with UNC TPD Section B.2.6.7, within Gemini no later than two calendar months after the last annual invitation date and therefore, at the latest by 27<sup>th</sup> May 2020. Allocation information will be published by National Grid within Gemini and also on the National Grid website in accordance with the UNC TPD Section B2.14.2 for each ASEP and each relevant period via:

<http://mip-prod-web.azurewebsites.net/EntryCapacityAuctions/Index>

by selecting the following criteria:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Allocation Results
From Month/Year:	Oct-21
To Month/Year:	Sep-36

### **Reserve/Incremental Prices**

On 4<sup>th</sup> February 2020 National Grid re-issued the Statement of Gas Transmission Transportation Charges, in which are detailed the incremental price steps that apply to the QSEC auction. Appendix D of the statement contains the Entry Capacity reserve prices together with the price steps for each level of incremental capacity for use in the QSEC auction, while Appendix E covers the estimated project values.

There are UNC Charging modifications which may affect the Transportation Charging methodology for the Gas Year starting 1 October 2020. Of note is Modification 0678A 'Amendments to Gas Transmission Charging Regime' (including ten alternates) for which Ofgem published a minded to position and impact assessment on 23 December 2019 which can be found via: (<https://www.ofgem.gov.uk/publications-and-updates/amendments-gas-transmission-charging-regime-minded-decision-and-draft-impact-assessment>). This included a preference for October 2020 as the proposed effective date. As a decision is expected in the near future, this means there is the potential for the payable prices associated with capacity allocated and commodity charges to be impacted by such modifications.

Additional modifications may also impact the payable prices and aspects of the charging regime for the Gas Year starting 1 October 2020. Market participants should keep up to date and engage with live UNC changes and be aware of those with Ofgem for decision via the Joint Office (<http://www.gasgovernance.co.uk/livemods> and <http://gasgovernance.co.uk/index.php/withofgem>).

Please note that the charges included in this notice are currently calculated solely on the current methodology, in line with the UNC, and will continue to be so until more certainty is available on the potential changes.

The statement can be found via: <https://www.gasgovernance.co.uk/ntscharges/2020>. Entry Capacity reserve prices and price steps are included in Appendix 1 of this letter, for your convenience.

---

<sup>8</sup> In accordance with UNC TPD Section B.2.14.1

## **Other Information**

National Grid's views on potential future demand for NTS Entry Capacity and its implications for the Gas National Transmission System are reflected by the supply scenarios described in its current Gas Ten Year Statement which can be found via:

<https://www.nationalgridgas.com/insight-and-innovation/gas-ten-year-statement-gtys>

High level information on the key drivers behind the scenarios within the Ten Year Statement can be found via:

<https://www.nationalgrideso.com/insights/future-energy-scenarios-fes>

National Grid's supply forecasts are built from information received from a combination of its Future Energy Scenarios (FTE) consultation process and commercial sources. It is anticipated that long-term capacity (QSEC) auctions will provide a further source of information.

Please note that this invitation is being sent by e-mail via the Energy Networks Association. An ANS message will also be issued informing users that the invitation has been issued. The invitation will also be posted on the National Grid website via:

<http://mip-prod-web.azurewebsites.net/EntryCapacityAuctions/Index>

and by selecting the following criteria:

Auction Type:	Quarterly System Entry Capacity
Report Type:	Invitation Letter
From/To Month/Year:	Oct-21 to Sep-36

National Grid has put this document together with due care and in good faith. In the unlikely event of an error, National Grid reserves its right to correct the error, amend and re-issue the letter as required.

If you have any queries with regards to entry capacity, the auction mechanism, Gemini or information provision then please do not hesitate to contact a member of our team on +44 (0)1926 654057. Alternatively, you can e-mail the capacity team regarding any capacity issues at [capacityauctions@nationalgrid.com](mailto:capacityauctions@nationalgrid.com).

The relevant information relating to this auction (QSEC 2020) can be found in the following Appendices:

- **Appendix 1**      **Entry Capacity reserve prices and price steps**
- **Appendix 2**      **Unsold Obligated Capacity, by ASEP, by quarter**
- **Appendix 3**      **Useful sources relating to Entry Capacity Regime and QSEC auctions**
- **Appendix 4**      **List of Potential Advisors for bidding strategies/other commercial advice**

Yours faithfully,

**Capacity Auctions Team**  
Gas Transmission  
**nationalgrid**

## Appendix 4

### Potential Advisors

We have asked potential advisors to contact us if they wish to have their details included in the QSEC invitation letter.

Below is a list of those advisors that have responded, listed in alphabetical order.

Please note that National Grid has not vetted any requests and that inclusion in the list does not imply they are recommended by National Grid or meet any relevant professional standard. Users should satisfy themselves of the expertise of any potential advisor before engaging them.

The list is as follows;

1. Calvert Consultancy Ltd in association with WatersWye Associates  
Elaine Calvert +44(0)7879 431479 [elaine@calvertconsultancy.co.uk](mailto:elaine@calvertconsultancy.co.uk)  
Nick Wye +44(0)1789 266811 [nick@waterswye.co.uk](mailto:nick@waterswye.co.uk)
2. Pöyry Management Consulting  
Angus Paxton +44 (0)1865 812 263 [angus.paxton@poyry.com](mailto:angus.paxton@poyry.com)  
John Williams +44 (0)1865 812 262 [john.williams@poyry.com](mailto:john.williams@poyry.com)  
Websites: [www.poyry.com/](http://www.poyry.com/)
3. TPA Solutions  
Brian Withington MBE +44 (0)1564 778523 [brian@tpasolutions.co.uk](mailto:brian@tpasolutions.co.uk)  
Sue Ellwood +44 (0)1564 784725 [sue@tpasolutions.co.uk](mailto:sue@tpasolutions.co.uk)  
Website: [www.tpasolutions.co.uk](http://www.tpasolutions.co.uk)

Potential advisors wishing to be included in future lists should contact the Capacity Auctions team at National Grid.
