UNC Modification Proposal 0758 - Temporary extension of AUG Statement creation process

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal to which Cadent does not provide support.

**Do you support or oppose implementation?**

Oppose

**Relevant Objective:**

- d) Negative
- f) Negative

**Reason for support/opposition:**

We do not support implementation as we have seen no compelling evidence that the process carried out by the current independent AUGE, in preparation of the AUG Table and AUG Statement, was not 'fit for purpose'.

We also believe that if the modification were to be approved that there would be a disconnect between the table within the 21/22 AUG Statement (approved by UNCC on 15 April 2021) and the proposed use of the previous years AUG Table, given that they will not correspond and could cause industry confusion.

**Implementation**

We agree with the proposer that should the modification be approved then implementation should be prior to 1 Oct 2021.

### **Impacts and Costs**

None identified

### **Legal Text**

We are happy that the Legal Text meets the requirements of the Modification Solution.

### **Are there any errors or omissions in this Modification Report that you think should be taken into account?**

Nothing further to add.

### **Please provide below any additional analysis or information to support your representation**

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 ([andy.clasper@cadentgas.com](mailto:andy.clasper@cadentgas.com)) should you require any further information.

Yours sincerely,

Andy Clasper
