28<sup>th</sup> November 2022

Dear Joint Office,

**Re: 0815S – DSC Committee Quoracy**

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

**NGN supports this Modification Proposal.**

**Reason for support**

We support this Modification as it should reduce the risk of potential impact to DSC governance, and the timely delivery of associated systems change processes, being impacted by a DSC Committees not reaching shipper quoracy. We therefore believe that this modification furthers Relevant Objective *f) Promotion of efficiency in the implementation and administration of the Code.*

**Implementation:**

As Self-Governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no appeal being raised.

**Impacts and Costs:**

None identified.

**Legal Text:**

We believe the legal text provided should deliver the Solution set out in the modification.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?**

We note that 'Note 1' in the 'Why Change?' section refers to the original draft proposal to bring quoracy requirements for both Shippers and Transporters to two. As all other parts of the Report, and the Legal Text, reflect the subsequently agreed retention of three Transporter Representatives and two Shipper Representatives, we believe this to be a non-impacting oversight and not material to the implementation of this Modification.

**Please provide below any additional analysis or information to support your representation**

No further comments.

I hope these comments will be of assistance and please contact me should you require any further information in respect of this response.

Yours sincerely,

Tracey Saunders (via email)
