Dear Joint Office,

Re: 0827S: Amending the Unsecured Credit Table in TPD V3 to reflect the removal of Graydons and insertion of Creditsafe

Thank you for the opportunity to provide representation on the above noted Modification Proposal. Please find below Northern Gas Network's (NGN) comments in respect of this change.

NGN supports this Modification Proposal.

Reason for support

We support this Modification as it should ensure that new and existing Shippers continue to have access to Unsecured Credit assessment via a choice of 3 Credit Agencies. As Transporters no longer have access to the Graydon platform the insertion of Creditsafe is necessary. Accordingly, we agree with the proposer that this modification furthers Relevant Objective f) *Promotion of efficiency in the implementation and administration of the Code.*

Implementation:

As Self-Governance procedures are proposed, implementation could be sixteen business days after a Modification Panel decision to implement, subject to no appeal being raised.

Impacts and Costs:

None identified.

Legal Text:

We believe the legal text provided should deliver the Solution set out in the modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

None identified.

Please provide below any additional analysis or information to support your representation

I hope these comments will be of assistance and please contact me should you require any further information in respect of this response.

Yours sincerely,

Tracey Saunders (via email)
