Dear Bob

Re: Modification 296 Facilitating a Supply Point Enquiry Service for Non-Domestic Supply Points

Please find attached Gazproms response to Modification 296. We are happy for our comments to be shared with other interested parties.

Gazprom supports Modification Proposal 0296 Facilitating a Supply Point Enquiry Service for Non-Domestic Supply Points

While we support the proposal we have raised concerns over the method by which the information can be obtained and we note that this concern has been taken on board and the proposal is for the information to be made available via a secure Web Site on a case by case basis and not via a CD Rom or other less controlled method.

We would like to confirm that the additional clarity around the definition of “contemplating” is specific to the Supply Point Enquiry process as set out in the draft legal text. I trust these comments are helpful. If you have any queries regarding this response please do not hesitate to contact me directly.

Yours Sincerely
