Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

SGN is supportive of this modification as we believe that it offers an efficient way for Meter Asset Providers to gain access to information that is critical to their activities where the original RGMA process has failed.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

N/A

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

SGN feel that this modification supports relevant objective d as it will improve the timely provision of data to Meter Asset Providers which may in time reduce industry costs and improve the allocation of costs across the industry

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

As soon as reasonably practical

Legal Text:

Are you satisfied that the legal text [and the proposed ACS (see www.gasgovernance.co.uk/proposedACS)] will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
