

## **NETWORK CODE PROPOSAL FOR REVIEW**

**Date:** 1 July 1996

**Proposed Report Date:** 19 November 1996

### **Area of Network Code Concerned**

UK Link Manual, Security Policy, Appendix B paragraphs B3.3 and B3.6.

### **Nature of Proposal**

At the Modification Panel meeting on 20 June Modification Proposal Ref 0033 was unanimously approved for direct implementation as a Class 3 UK Link Modification. This Modification allows Ofgas access to two additional UK Link screen displays and the Panel requested that a Proposal for Review be brought forward to ascertain if there is a need to further extend Ofgas system access.

This Review will therefore consider to what extent, if at all, Ofgas on-line access to operational information should be widened in the interests of better decision making when considering Urgent Modification Proposals associated with Energy Balancing.

Proposer : Chris Train  
Signature :  
Position : Energy Balancing Manager  
Company : TransCo

### **Modification Panel Secretary's Use Only**

Reference Number : 0044  
Date Received : 1 July 1996

### **NOTES -**

1. This Proposal for Review arises from the prior Class 3 UK Link Manual Modification Proposal (Ref 0033). Any Modification Proposal arising from this Review will also be dealt with as a Class 3 UK Link Modification.
2. In bringing forward this Proposal for Review TransCo are continuing to facilitate the process and remain essentially neutral as to its content.
