

General Notice
"Optional Limits for Inert Gases at System Entry Points"
Version 1.0

Dear Colleague,

OFGEM has requested the following note to be circulated.

As you will be aware, modification proposal 049 'Optional limits for inert gases at System Entry Points', is now with Ofgem for a decision. The implementation of this proposal was recommended by the Modification Panel meeting of 20 October 2005.

Ofgem considers that, if implemented, this modification proposal may have significant effects on the environment. Ofgem therefore intends to conduct an Impact Assessment of the proposal, in accordance with Section 5A of the Utilities Act 2000, as amended by the Sustainable Energy Act 2003.

Ofgem currently intends to circulate its draft Impact Assessment by mid-November 2005, followed by a 28 day consultation period. Ofgem anticipates being in a position to decide upon this modification proposal in late 2005.

If you have any comments on this email, please contact
