

## **REVIEW GROUP - FINAL TERMS OF REFERENCE**

**Proposal Ref : 0079**

### **Composition**

Susan Kent	Chairperson
Martin Walker	TransCo
Steve Adams	TransCo
Phil Moody	Eastern Natural Gas
Paul Borrett	United
Gary Cowan	Quadrant
Richard Sarsfield-Hall	BGT
Sascha Khan	Alliance
Tahir Majid	Ofgas

### **Scope of Review Group**

The Review Group will work largely as a review body, and will be asked to:-

- approve the change in principle
- satisfy themselves that UK Link Users' systems and access to UK Link will not be adversely affected by this change
- ensure that their legal representatives agree the removal and replacement of legally-binding text in the UK Link Manual
- approve the detailed change.

### **Work to be undertaken**

TransCo will be responsible for providing the following:-

- copies of the sections of the UK Link Manual in revision marking showing intended changes
- a visual representation of what will be moved to and published on the Shipper Information Service, and a proposal of how that information will be change-managed
- a contact point within TransCo with whom the Review Group can address queries directly.

The Review Group will be responsible for reviewing the above and suggesting amendments.

In addition, it is expected that the Review Group will be called together twice: the purpose of the first meeting will be to agree the change in principle, and discuss the proposed revisions and any amendments with TransCo; the purpose of the subsequent meeting will be to sign off the amended Modification. Other meetings may be called as necessary.

### **Timetable**

The timetable will be agreed with the Review Group.
