Dear Mr Whitehand,

Reference: 1st Draft 2012 AUGS for 2013/14

Energy UK represents a wide spectrum of interests across the sector. This includes small, medium and large companies working in electricity generation, energy networks and gas and electricity supply, as well as a number of businesses that provide equipment and services to the industry.

Energy UK is pleased to respond to the consultation on the first draft AUGS for 2013/14. Our response, which is attached, is a high level industry view and our members may also provide individual responses.

We would be happy to discuss any of the points made below in further detail with if this is considered to be beneficial.

Yours sincerely,

Alun Rees
Policy and External Relations Manager
