Reference: Responses to Interim Report Consultation

Date: 17th October 2012

Dear Colleague

Thank you for the feedback on the Interim Report and ongoing support of the AUG process. The report covered the analysis of a consumption method for calculating Unidentified Gas and a revisit of the method of splitting theft by market sector. The correspondence received has been posted on the Joint Office of Transporters website. Our responses are also published on the Joint Office of Transporters website under AUGS Communications. Additional data requests have been submitted to Xoserve and further analysis is planned to be undertaken to address some of the issues/concerns raised and these are covered in the responses.

A brief update on progress and status of actions from the previous workshop will be provided to the UNCC on 18th October. A more detailed update on progress and our plans going forward will follow discussions regarding the provision of remaining data sets with Xoserve next week.

Yours sincerely

Clive Whitehand
