### Draft Modification Report

#### 0461 - Changing the UNC Gas Day to Align with the Gas Day in EU Network Codes

**Consultation close out date:** 27 January 2014  
**Respond to:** enquiries@gasgovernance.co.uk  
**Organisation:** GDF Suez  
**Representative:** Isabelle Magne  
**Date of Representation:** 27 January 2014

#### Do you support or oppose implementation?

Comments

**Please summarise (in one paragraph) the key reason(s) for your support/opposition.**

*The following comments have been provided by email:*

“GDF SUEZ wish that at any points of the grid (interconnections, terminals, production, ...), the Gas Day should be defined identically. It should not be an option to consider a specific adaptation limited to the IPs in respect of the CAM network code, which will result in a more complicated balancing of gas days than it is currently.”
