Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

This change will ensure that customer transfer timescales requirements across the UK are achievable in Scotland when transfers are impacted by the additional Scottish New Year Bank Holiday.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

None

Self Governance Statement:

Do you agree with the Modification Panel's decision that this should be a self-governance modification?

Yes

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

By treating the Scottish additional New Year Bank Holiday as a working day it lessens the constraints on transfer timescales when they are at their tightest, and aligns the processes to that of the market outside of Scotland, so this facilitates efficiency in the administration and implementation of the network code

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None envisaged, since this date would no longer be loaded as a non-business day for processing transfers.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

ASAP as we would like to see this incorporated when UK Link issue the non-business days to the industry for 2014/5.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
