Draft Modification Report

0467 – Project Nexus – iGT Single Service Provision; data preparation

Consultation close out date: 18 July 2014
Respond to: enquiries@gasgovernance.co.uk
Organisation: E.ON
Representative: Colette Baldwin
Date of Representation: 11 July 2014

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Project Nexus changes introduces settlement reform that cannot be achieved for iGT Supply Points unless they are integrated into the common Agency system. This modification looks to ensure the data is prepared and any missing or inaccurate data is resolved before the cut-over to the replacement UK Link system.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

We believe this modification facilitates Relevant Objective F as it promotes efficiency in the administration of the code by ensuring essential preparatory work required for modification 440 is realised.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

0467

The costs of this work are being captured under the delivery of Project Nexus changes and are therefore not separately articulated here.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

As soon as possible. We believe there will be significant work to check and verify iGT Portfolios and undertake any necessary corrective work.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

We would encourage visibility of progress of the data preparation work being made available to industry stakeholders via the Data Cleansing activity being overseen by the UK Link Industry Engagement Forum. This will help instil a level of confidence in industry readiness.
