

Dear Colleague,

Teleconference Agenda: Pre-Modification Panel Briefing
Documentation at: www.gasgovernance.co.uk/panel/160415
Teleconference details: 0207 950 1251, access code 21870295#

Please note that we will be hosting a pre-Modification Panel briefing by teleconference starting at 13:00 on Monday 13 April 2015. Discussions will be based on the Modification Panel agenda (www.gasgovernance.co.uk/panel/160415).

This pre-Panel briefing is intended to provide, in particular, an opportunity for smaller parties, including customer representatives as well as smaller Shippers and Suppliers, an opportunity to feed views into the modification process at critical stages. We therefore expect to focus on new Modifications and those on which the Panel will debate whether or not implementation is supported. Similar teleconferences are held on the Monday prior to each monthly Modification Panel meeting (third Thursday of the month). Any views on which information would be most helpful to you, or on the time and format of the teleconference, would be welcome.

Modifications that are on this month's Panel agenda are:

New Modifications

Modification 053x –

Proposed by

This modification proposes

The Proposer is not seeking self-governance status for this modification, believing that [xxx] may have a material effect on competition.

<http://www.gasgovernance.co.uk/053x>

Implementation Recommendations

None this month.

Self Governance

None this month.

I hope this summary is helpful.

Regards,

Les Jenkins
