UNC Modification Proposal 0528 - Implementation of Supply Point Administration, gas allocation and settlement arrangements (Project Nexus transitional modification)

Date: 12th August 2015

The Proposer, National Grid Distribution, requests a variation to this modification, pursuant to UNC Modification Rules Section 6.5.1(c) of the UNC.

Reason for Variation

It is necessary to update the version number of the Transition Business Rules referenced within Section 3 'Solution' of the Modification Proposal. There is also a need to refer to a new UNC Related Document being the Nexus Transitional AQ Validation Rules.

Change the document reference in Section 3 'Solution' being 'Transition Business Rules (BR) for Project Nexus' v1.0' to v2.0. Reference to a requirement for a UNC Related Document being the Nexus Transitional AQ Validation Rules has also been added to Section 3.
