#### **Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

We supported proposal 0510 when it was formally consulted on in April. The specific issues identified in respect of BBL following that consultation process have been effectively explained and addressed by the Proposer and we therefore support implementation of the varied proposal 0510V.

#### **Implementation: What lead-time do you wish to see prior to implementation and why?**

Implementation by 1 October 2015 is desirable.

#### **Impacts and Costs: What analysis, development and ongoing costs would you face?**

Expected to be low.

#### **Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Yes.

#### **Are there any errors or omissions in this Modification Report that you think should be taken into account? Include details of any impacts/costs to your organisation that are directly related to this.**

None identified.

**Please provide below any additional analysis or information to support your representation**

Please refer to our response to the original proposal 0510 that should be regarded as complementary to this representation..
