| Support or oppose implementation? | Support |
| Relevant Objective: | g) Positive |

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The proposal is consistent with enhancing interoperability between adjacent TSOs. Furthermore, the proposed new oxygen content limit will lie well within the limit prescribed by GS(M)R so there should be no expected detriment to the NTS or Users.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

We don't anticipate any significant impacts on Users or the System/ NTS as a result of this proposal being implemented. We therefore agree that self-governance is appropriate.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

As soon as reasonably practicable.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

No costs identified.

Legal Text: *Are you satisfied that the amendments proposed to the Interconnection Agreement will deliver the intent of the Solution?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

Please provide below any additional analysis or information to support your representation
