

Legal Text Variation Request

0506A - Gas Performance Assurance Framework and Governance Arrangements

Date: 6th November 2015

Wales & West Utilities requests a variation to the legal text for this modification.

Reason for Variation

The current text needs amending in various places to make clear that the Guidelines for Energy Settlement Performance Assurance Regime document (ESPAR) is a UNC related document under TPD V12 and that the the Performance Assurance Committee cannot modify that document. This change is required to implement the intent of the modification proposal.

Nature of Variation

This variation of the legal text amends clause 19.1, 19.2 and 19.3. to clarify that the ESPAR can only be modified pursuant to the process in TPD V12 and not by the Performance Assurance Committee.

We do not believe that this change is material.

A change marked version (version 4) is published alongside this variation request.
