Organisation:	BP Gas Marketing
Date of Representation:	14 January 2016
Support or oppose implementation?	Support
Relevant Objective:	b) Positive e) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Placing the NTS Optional Commodity Charge formula within the UNC means that the formula will be subject to formal UNC governance. Having the formula within the UNC means that any proposed change would have to be consulted upon, which is not the case at the moment. It would also mean that any interested party could propose a change and not just National Grid.

Self-Governance Statement: Please provide your views on the self-governance statement.

Yes

Implementation: What lead-time do you wish to see prior to implementation and why?

As soon as possible.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

We do not see any impact on costs.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation
