

Commentary on Legal Text for Modification 0520A

Paragraph 16.1.1 defines the Performance Assurance Report Registers as the document of that name published by the Transporters in line with business rules 1.

Paragraph 16.1.2 implements business rules 2, 5 and 8.

Paragraph 16.1.3 implements business rules 3 and 4. (See GTC 2.9.3 on the meaning of “publish” and GTB 2.1 and 2.2 for the use of terms for various parties and 2.3 on the definition of Parties). The use of “short codes” reflects that these are not a UNC defined term. The proposer has confirmed that the intent is for reports 1A and 2A to be provided to Shippers and 1B and 2B to the Performance Assurance Committee once formed. As the Performance Assurance Committee does not currently exist the text refers to a relevant sub-committee of the Uniform Network Code Committee.

Paragraph 16.1.4 implements business rules 6 and 7.

Notes.

No carve out to TPD V5 (Protected Information) is required because the disclosure in this Modification proposal is covered by the exemption in TPD V5.5.2 (d)

As BR 5 states that any change to the reports can only be achieved by means of a modification then this document is not included in the carve out in TPD V12 which enables documents to be amended by the UNCC.
