Support or oppose implementation?	Support
Relevant Objective:	d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support Modification 551 as it will give a 'soft landing' to customers adversely affected by the implementation of Modification 0428. It will prevent penal ratchet charges from being applied to customers who have had Supply Points disaggregated under Modification 0428 and subsequently incurred these charges through no fault of their own.

Implementation: What lead-time do you wish to see prior to implementation and why?

This modification should be implemented as soon as possible following a decision by The Authority.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None identified.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? Include details of any impacts/costs to your organisation that are directly related to this.

No.

Please provide below any additional analysis or information to support your representation
