Support or oppose implementation?	Support
Relevant Objective:	d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The objective of the modification provides protection for consumers following the de aggregation exercise. The soft landing provided by MOD 551 will allow consumers sufficient time to ensure loads are accurately specified at individual meter points. And to provide protection for the coming winter for any meter point that has been de-aggregated by the Transporter where the loads have not been specified by the consumer.

Implementation: *What lead-time do you wish to see prior to implementation and why?*
