

REVIEW PROPOSAL

Date: 15/05/96

Proposed Implementation Date: None

AREA OF NETWORK CODE CONCERNED

All of Section Q

NATURE OF PROPOSAL

During the discussions leading up to the signing of the Network Code, it was acknowledged by TransCo and Users that the Health & Safety Commission would, in 1996, make regulations relating to the safety of gas transported by pipelines.

In light of such regulations it would be necessary to modify Section Q.

It is now appropriate to establish a Review Group to examine the impact of the Gas Safety (Management) regulations on Section Q.

TransCo is seeking the Panels approval for wider representation on the group i.e. Health and Safety Executive, DTi, Terminal Operators and Producers.
