#### **Modified Text:**

#### **Transition Document, Part II, paragraph 8**

Insert under Section E:

- E2.1.3 (1) For Gas Flow Days in August 1996, if the same person was appointed by all Users as User Agent in relation to a System Entry Point pursuant to Section E2.2, Users may arrange for such User Agent to submit, not later than 21st March 1997, to TransCo revised Entry Allocation Statements in respect of such System Entry Point, in accordance with and subject to Section E2.1.3, but notwithstanding that the Entry Close-out Date is passed.
- (2) Such revised statements will not take effect as Entry Allocation Statements, and accordingly relevant charges will be determined and invoiced by reference to the Entry Allocation Statements submitted by the Entry Close-out Date; but separate adjustments will be made pursuant to paragraph (3).

- (3) TransCo will determine, as nearly as may be, for all Users and for each Day in August 1996;
  - (a) the quantities which would have been each User's UDQIs, Daily Imbalance and Net Cumulative Imbalance, on the basis of such revised statements;
  - (b) the amounts which would have been payable, by reference to the UDQIs, Daily Imbalances and New Cumulative Imbalances under paragraph (a), by way of:
    - (i) Daily Imbalance Charges and (subject to paragraph (4)) Cumulative Imbalance Charges;
    - (ii) where this would result in a reduction or elimination of such a charge payable as described in paragraph (2), but not otherwise, Input Scheduling Charges and System Entry Overrun Charges; and will make corresponding adjustments, to be invoiced in accordance with Section S, by reference to the amounts determined and invoiced as described in paragraph (2).
- (4) No revision shall be made pursuant to paragraph (3) in respect of the calculation of Cumulative Imbalance Tolerance Quantities in respect of any Day after 31st August 1996.
- (5) Revised statements submitted under paragraph (1) may state quantities on an aggregate basis for all System Entry Points in an Aggregate System Entry Point, in which case:
  - (a) under paragraph (3)(a), the aggregate of a User's UDQIs for all such System Entry Points will be determined;
  - (b) no adjustment to any Unauthorised Gas Flow will be made, or taken into account in any determination made, under paragraph (3).
