Dear Sir/Madam

**Urgent Modification 109 - Calculation of Charges Associated with NDM & DM Supply Points in the Shipper Withdrawal Account**

Ofgas agreed the above modification proposal as urgent on the 18th of December and set an appropriate close-out for representations based on that date. Unfortunately, following a misunderstanding the modification proposals were not actually sent to interested parties by BG TransCo until late on 24 December. Consequently, the industry did not enjoy the benefit of the ten working days for consideration of the proposal as Ofgas had intended. Following representations from customers Ofgas agreed to further extend the close-out by one week.

Ofgas will in future agree with TransCo a timetable for urgent modification representations dependent upon modification proposals having being sent to all interested parties by close of business the following day. If the aforementioned is not achieved then the timetable will where possible be extended as appropriate.

Yours faithfully
