Dear Sir/Madam

Modification 0210 - Revision to Top-up Manager Rules relating to Review and Recalculation of Top-up requirements following Initial calculation

Ofgas does not believe that the above modification merits urgent status. It is our view that this proposal does not have an immediate commercial impact requiring urgent action. However, we agree with some of the principles highlighted in this modification proposal and are concerned about the actions of Transco in regard to the revision of Top-up requirements 97/8 (and subsequent rebate to the Top-up account). Consequently, Ofgas believes that the timescales for this modification should be discussed at the February Modification Panel. If you wish to discuss any aspect of this letter please contact me on the above telephone number.

Yours faithfully
