To: Shippers, Panel Members & Non-Network Code Parties

Dear Colleague,

**NOTICE OF IMPLEMENTATION
MODIFICATION PROPOSAL No: 0261**

"The inclusion of the arrangements for Stranraer in the GB-Ireland CSEP Ancillary Agreement"

Please note that The Final Modification Report , Version 1.0 was signed by Ofgas on *23rd September 1998* for Modification Proposal No: 261.

With effect from 06.00 hours on *1st October 1998*, the new Network Code text resulting from this Modification is detailed below.

Modified Text:

Section A

1.7 Scottish Independent Networks

1.7.1. "Subject to paragraph 1.7.5, each of the separate pipeline networks located in Scotland at Thurso, Wick, Campbeltown and Oban provisioned with LNG, and at Stranraer, in Scotland, and provisioned with LNG gas is a Scottish Independent Network".

1.7.5 "Pursuant to an arrangement set out or described in the relevant CSEP Ancillary Agreement, the separate pipeline network located at Stranraer is supplied with gas taken from the System at a Connected System Exit Point and conveyed by means of pipes operated other than by Transco (and not forming part of the System); and accordingly in any provision of the Code referring to LNG Facilities, a reference to a Scottish Independent Network does not include the network at Stranraer."

Section B

1.9 Scottish Independent Networks

1.9.2 "In order to enable Users to offtake gas from the System at SIN Supply Point Components :

- (a) except as provided in paragraph (b), Transco will hold Storage Space in and inject gas into LNG Facilities, and arrange for LNG to be lifted from those facilities and transported by road tanker to and discharged to LNG storage and regasification plants at each Scottish Independent Network.
- (b) in relation to the Scottish Independent Network at Stranraer, Transco will arrange for gas to be taken from the System at a Connected System Exit Point and conveyed to that network pursuant to the arrangements referred to in Section A1.7.5"

Yours sincerely

Dennis Rachwal
