Dear Anne-Marie,

Re Mod proposal 273 - Additional Entry Capacity Services

Further to your fax of today and our subsequent conversation, I can confirm that Ofgas is willing to consider the above as urgent and that the timetable indicated is acceptable.

I would like to point out, however, that a more detailed proposal and text would have been advisable. Not every shipper has attended every Capacity Workstream and for that reason the proposal should have a fuller explanation of the ideas involved and in a greater level of detail.

The above, however, should not detract from our support of the introduction of additional entry capacity services, so the modification proposal is acceptable as it stands.

Yours sincerely
