**12.21** If paragraph 12.20 applies, the Gas meter installed at the relevant premises must be an advanced meter.

**12.22** For the purposes of this condition, an advanced meter is a Gas Meter that, either on its own or with an ancillary device, and in compliance with the requirements of any relevant Industry Document:

**(a)** Provides measured gas consumption data for multiple time periods, and is able to provide such data for at least hourly time-periods; and

**(b)** Is able to provide the licensee with remote access to such data.

**12.23** The licensee must ensure that a Customer supplied with gas at relevant premises through an advanced meter, or that Customer's nominated agent, has timely access, on request, to the data provided by that meter.

**12.24** As from 6 April 2014, the licensee must not supply gas to any relevant premises other than through an advanced meter.

**12.25** The prohibition imposed by paragraph 12.24 does not apply where the licensee is unable to install or arrange for the installation of an advanced meter at the relevant premises in question despite taking all reasonable steps to do so.
