EDF Energy	Bryan Hale	19/01/2016	In Support	Y	<p>We support this change as it may lead to a shipper designing and building this file incorrectly with the documentation in its current format.</p> <p>This is especially relevant on the index page where the K83 is not shown under the K69 record.</p> <p>We can confirm this is a documentation only change for EDF Energy and that we have interpreted the design of this file format correctly</p>	Thank you for your comment
