Representative:	David Mitchell
Organisation:	Scotland Gas Networks and Southern Gas Networks
Date of Representation:	6 th September 2019
Support or oppose implementation?	Support
Relevant Objective:	a) Positive c) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support this Modification as it introduces a new Supplier of Last Resort (SoLR) Customer Charge which will improve the targeting and recovery of allowed costs associated with a SoLR event.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

From an SGN perspective this modification proposal could be implemented as soon as directed by the Authority, an early implementation decision would allow us to make amendments to our 2020 / 2021 charging statement in advance of the relevant notice period. Whilst we would be able to accommodate an early implementation date consideration would need to be given to the changes needed on the Xoserve's systems which may result in a delay in implementing this change.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

No impacts to SGN have been identified.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

Please provide below any additional analysis or information to support your representation

No additional Comments.
