

Representation - Modification UNC 0722 (Urgent)

Allow Users to submit Estimated Meter Reading during COVID-19

Responses invited by: **1pm on 27 April 2020**

To: enquiries@gasgovernance.co.uk

Please note submission of your representation confirms your consent for publication/circulation.

Representative:	Andrew Green
Organisation:	Total Gas & Power Ltd
Date of Representation:	27/04/2020
Support or oppose implementation?	Support
Relevant Objective:	d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Many non-domestic sites have reduced consumption due to Covid 19 restrictions and with businesses shut down it is difficult / impossible to obtain actual meter reads. A mechanism is therefore required to allow shippers to submit estimated, as actuals, to allow reconciliations to occur and so improve cost allocation. The solution within this modification allows that to be done quickly and effectively by utilising existing industry processes

Implementation: What lead-time do you wish to see prior to implementation and why?

As soon as possible

Impacts and Costs: What analysis, development and ongoing costs would you face?

No material costs for TGP

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

We have not reviewed the legal text

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation

None provided
