Your Reference: UNC Modification Proposal 0697S

UNC Modification Proposal 0697S Alignment of the UNC TPD Section V5 and the Data Permissions Matrix

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent supports.

Do you support or oppose implementation?

Support

Relevant Objective:

f) Positive

Reason for support/opposition:

Cadent supports the modification as it removes inconsistencies, misalignment and ambiguity between the UNC and the Data Permissions Matrix (DPM) and removes unnecessary data item details from the UNC.

Implementation

Implementation of the modification could take place 16 days after Modification Panel decision subject to no appeal being raised.

Impacts and Costs

No impacts or costs have been identified.

Legal Text

We are satisfied that the Legal Text meets the intent of the modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions.

Modification Panel Members have requested that the following questions are addressed

Q1: Respondents are asked to provide views on whether they believe that there are any potential SCR impacts

The Legal Text was drafted, in line with the modification solution, against the version of the UNC available at the time legal text was requested.

It has since become apparent that TPD V5.17 (which Modification 0697S would remove in its entirety) has been amended by the BEIS consultation therefore the recently added BEIS clauses V5.17.2, 5.17.3 and 5.17.4 would be removed following implementation of 0697S.

Whilst not wishing to delay the implementation of 0697S, further consideration of the best governance route to retain or reinsert V5.17.2, 5.17.3 and 5.17.4 (if required) may be necessary ahead of implementation of 0697S.

Please provide below any additional analysis or information to support your representation

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 (andy.clasper@cadentgas.com) should you require any further information.

Yours sincerely,

Andy Clasper
