RIO-T3 Incentive Engagement

SSMC Consultation

- In December Ofgem has published the RIO-3 Sector Specific Methodology Consultation (SSMC) for the Gas Distribution, Gas Transmission and Electricity Transmission Sectors. The consultation seeks views on the methodology Ofgem considers to apply for setting the RIO-3 price controls. You can access the consultation [here](#).
- The consultation will close on 6th March 2024.
- The consultation includes Ofgem's minded to position regarding Gas Transmission Incentives. If you are not familiar with our incentives, you can find the relevant information on our website: [Gas Operator Incentives](#).

How are the incentives going to change in RIO-T3?

- RIO-T3 Team has started the industry engagement on Gas Transmission Incentive schemes.
- We are contacting our customers asking for an opportunity to discuss whether the current schemes continue to drive valuable outcomes to your business and your interests, if/how the structures of the existing incentives should change, and if we need to develop incentives in any other areas of Gas Transmission.

Please contact us with any questions or feedback on the incentive arrangements:

- Chris Hewitt, T3 Officer (chris.hewitt@nationalgas.com)
- Anna Stankiewicz, Incentives Analyst (anna.stankiewicz@nationalgas.com)
