## Roll Over Process - 400,000 Daily Limit is Breached By All Shipper Files

## **Current Functionality**

## Roll Over Process - 400,000 Daily Limit is Breached By All Shipper Files

## Proposed Functionality

	25,000 records rolled over	400,000 Limit
Please note that files are processed smallest first	Shipper C - 200,000 Records (175,000 records processed)	
	Shipper B - 125,000 Records	
	Shipper A - 100,000 Records	<ul> <li>Proposed functionality allows 400,000 records to be processed.</li> <li>So on this particular day 25,000 records from the file submitted by 'Shipper C' will roll over for processing on the next Business day.</li> <li>These rolled over 25,000 records will be processed</li> </ul>
		first on the next Business day. In the example given 'Shipper C' will receive separate .URN & .URS. files for the 175,000 records processed on 'day 1' and the remaining 25,000 records processed on 'day 2'.
