Project Nexus Workgroup Action: 0602

24/07/2015

Background

- Action 0602 from the 8th June workgroup:
 - AQ Correction, Xoserve to consider a process for correcting spurious reads, where there is a change of ownership.
- There is no process to provide for the current Shipper replacing a read in the previous Shipper's ownership period
- Prior to the transfer the incoming Shipper can request the previous 12 months consumption
- At the change of Shipper event the incoming Shipper receives the latest read held on UK Link
- At the change of Shipper event, Shippers can request the Historic Asset and Read Portfolio (Non-Code User Pays service) to receive 3 years worth of read and asset history.
- A Shipper can submit an AQ Correction up to 3 months from Registration, 'New Business Appeal'.
