

# **PNUNC AQ Principles Workgroup**

## **Consultation Responses**

9<sup>th</sup> March 2009

# Consultation Responses

---

- Summary taken from the Initial Requirements Register
  - Introduction of a rolling AQ is a core services required to ensure energy is accurately allocated
  - Rolling AQ will reduce the risk to RbD shippers and costs associated with reconciliation
  - Increased energy consumption data should feed into an updated AQ rather than waiting for the annual review
  - Rolling AQ being developed by Mod 0209 workgroup & should feature in Project Nexus
  - Review of the SOQ for DM & NDM sites throughout the year as currently it can be upto 12 months out of date
