Communication Ref : CB/0001/DA
 Subject : Representation Matrix for CB/994/DA - COR962.6 - Proposed Removal of QEX file

Colleague,

We have collated and attached all comments received within an individual matrix that covers the change issued 09/07/2010.

These will be discussed at the UKLink Committee meeting on the 13th August 2010.

Regards,

David Addison

CB/994/DA - COR962.6 - Proposed Removal of QEX file

Shipper	Name	Date	Accept/Reject	Publish	Shipper Comments	xoserve Comments
British Gas	Graham Wood	23/07/10	Reject	Yes	Further to your communication re: the removal of the QEX file. I can confirm that teams within British Gas currently utilise the QEX report therefore we would not like to see the report withdrawn from the scope of the replacement system without suitable alternative arrangements being in place.	Thank you for your comments. We will develop a solution that maintains the QEX functionality.
Gazprom	Steve Mulinganie	21/07/10	Reject	Yes	<p>Further to the issue highlighted at the recent operational meeting regarding the use of the .QEX file.</p> <p>Gazprom would like to confirm that we do utilise this report and would not wish to see its withdrawal.</p> <p>If an equivalent report were to be made available which could be run from the system on an adhoc basis we would of course be open to this solution.</p>	<p>Thank you for your comments. We will develop a solution that maintains the QEX functionality.</p> <p>We are not planning to provide a reporting interface with the initial delivery of the Q system, so we will retain the QEX in the existing format. Any records (whether raised by the web, web file or I'X) will be included within this report should they change status in the preceding week. This file will continue to be delivered by I'X.</p>
