Communication Ref : CB/1011/NR  
Subject : Proposed Changes to the Uniform Network Code Operating Reporting Manual

Colleague,

At last weeks UK Link Committee National Grid NTS sought a recommendation from the committee to update the Uniform Network Code Operating Reporting Manual (UNCORM) and associated Data Dictionary. The proposed update seeks to include approximately 30 additional data items into the Data Dictionary that National Grid NTS will be publishing via its website in order to satisfy the data transparency obligations introduced as part of the recent EU 3<sup>rd</sup> Package.

At the UK Link Committee meeting National Grid NTS took an action to circulate a link to the updated UNCORM and Data Dictionary available for review on the Joint Office website before the updates are discussed at the UNC Committee. As such please find a link to a change tracked version and a clean version of the proposed UNCORM document: <http://www.gasgovernance.co.uk/uklc/090910>

Any comments on the proposed changes should be sent to [Nick.Reeves2@uk.ngrid.com](mailto:Nick.Reeves2@uk.ngrid.com)

Regards,

Nick Reeves
