Communication Ref : CB/982/MR  
Subject : Re: Gemini Outage for NTS Exit Reform Phase 1 - Sunday 6th June 2010

Colleague,

Further to the UK Link Committee notification dated 20/05/10 (CB/973/KH) please be advised that as part of the Exit Reform Phase 1 implementation activities there is a requirement for an outage on the Gemini System on Sunday 6th June 2010.

The purpose of this communication is to confirm that the regular Gemini Maintenance window outage of 04:00am to 06:00am will be extended until 09:00am as previously agreed at UKLC.

Please note that a provisional outage extension until 12 midday has also been scheduled should additional time be required (i.e. for 'backout' activities). Should the provisional outage be utilised then the appropriate communications will be issued on the morning of 6th June via ANS.

Please do not hesitate to contact me if you would like to discuss this further.

Gemini Timetable (system times)

**Start of Outage:** Sunday 06/06/10 at 04:00 BST  
**End of Outage:** Sunday 06/06/10 at 09:00 BST  
**Duration:** Net Outage - 5 hours (normal housekeeping slot plus 3 hours)  
**Contingency:** Net Outage - 8 hours (normal housekeeping slot plus 6 hours)

Regards,

Matthew Rider
